1 Tips & Gotchas

Building Adaptive Cards?

- Build to **v1.5** — anything newer may not render.
- Ask Copilot for the **JSON payload** directly.
- Always include a **Submit button** — without it, the card is read-only.

2 Business Central APIs

When using the official Microsoft BC API pages, **look under v2.0** — that's the current standard. The reference below shows what's exposed in each API page.

learn.microsoft.com/en-us/dynamics365/business-central/dev-itpro/api-reference/v2.0/

3 Learn & Go Deeper

Official Copilot Studio Documentation

The canonical reference — start here for any "how does X work" question.

learn.microsoft.com/en-us/microsoft-copilot-studio/

Copilot Studio Agent Academy

Free, structured online learning content from the Microsoft CAT team.

microsoft.github.io/agent-academy/

Copilot Studio Kit

A Power Tools kit designed by the Copilot Studio team — accelerators, templates, and utilities.

learn.microsoft.com/en-us/microsoft-copilot-studio/guidance/kit-overview

MS Learn — Business Central Docs

The Business Central documentation home base.

learn.microsoft.com/en-us/dynamics365/business-central/

4 Licensing & Credits

Copilot Studio Billing Rates

Official message-management rates & what counts as a billed message.

learn.microsoft.com/en-us/microsoft-copilot-studio/requirements-messages-management

Copilot Studio Credit Estimator

Estimate credit consumption before you ship — useful for budgeting agents.
